

MOOV Board Meeting

Monday March 8, 2010

7:00 PM

At The Blue Ox

Attendees: Vice President Gloria Bell, Treasurer Gerald Schlutter, Greeter Areti Schlutter, Webmaster Mona Sagui, Secretary George Rose, Merchandise Judy Simpson with a total of seventeen members and one visitor.

Minutes

- Gasoline Alley's 11th Annual Birthday Bash will begin Saturday, May 29 at the Cannery casino on Craig Rd and will continue Sunday at Eldorado park in North Las Vegas.
- The photos from the Amargosa Opera House visit are on the MOOV web page.
- Jim Kerrigan mentioned a run to Death Valley this coming Saturday sponsored by the Lotus sports car club.
- For those interested in the monthly Cars and Coffee event, it is held on Saturdays near the 215 and Eastern. Web Page: lasvegas.carsandcoffee.info/
- George passed around a copy of Mazda's Zoom Zoom magazine which also included details about a photo contest. Upload your photo or video to zzmoments.com and you might win a tripod (are they kidding). It appears the contest is ongoing and maybe we could combine it with one of our own.
- Jim Murray introduced his nephew Jason Pena who he claims is a top notch mechanic. If you need more info talk to Jim or call Jason at 807-9765.
- Gerald stated the club's cash assets are \$843.00
- Gloria needs to refine the Palm Springs route planning and motel reservations for April 22-24. A lot of interesting sights are planned. Look for an email.
- The Pageant Of Our Lord/Getty Museum run is set for March 26-28.
- The Progressive Dinner event is scheduled for June 6 and the club will pay the food costs for the volunteers.
- Gerald and Areti are planning the Tuacahn event for September 18 even though they are not returning from Greece until September 10.
- Judy will be in charge of the Pahrump Grape Stomp in October.

- **As of now June, July and August are vacant for events. However, indoor events such as the Buffet Tours, Bowling, and of course MOOVies will be scheduled. There are opening for Buffet locations.**
- **The monthly bowling event could start in July. Date, location and time to be decided.**
- **Tech Session: Two members had to have collision work. Both were very satisfied with D&N Body Shop and the Jim Marsh Chrysler dealership. George asked Jason (our visiting mechanic) about replacing his speed sensor. Jason said it could just be an insulation problem. Roy Adkins was able to fix his unruly power window by simply replacing the battery! Every “do it yourself” member seems to have their own best way to change the oil filter. To each his own.**
